In submitting our annual report we again wish to thank the people of Orford for their hearty coöperation during the past year.

The net debt has not been decreased quite as much as last year owing to several unforeseen circumstances; among them, increased cost of labor and material, and the raising of rates, as for instance 10% on electric lights; 20% on board at the Orphans' Home. Then, too, there was an accident caused by the insufficiency of a bridge, which necessitated the payment of damages. Yet in spite of these drawbacks we succeeded in reducing the debt a little more than was voted at the last annual meeting.

In the work on State Aid Road there completed 3875 feet of new construction; about 1000 feet more prepared ready for gravel. In addition to this, and on advice from the state highway department, 2700 feet was resurfaced.

The estimates of amounts to be raised and expended for the ensuing year for state road and runk line work, as prepared by the state engineer, are to be found in the budget.

In the past year, eight schools have been in session, for thirty-three weeks each, employing twelve different teachers.

One hundred thirty pupils were recorded with an aggregate attendance of 33,382 sessions.

The Registers report sixty-one visits from the school board and three hundred and forty-six from parents and friends interested in our schools.

Teachers meetings were held at which the teachers discussed any problems they wished and lessons were taught in the various subjects. The teachers attended whenever possible.

APPROVED TEACHERS

Edith A. Greaves
Essie M. Cronk

Mary F. Olds

As there was only one member of the graduating class, the exercises were held in the afternoon in the school hall. The unique feature was a "Hoover Pie" in which all pupils had a share. Rev. C. F. Atkins presented the diploma and perfect attendance cards with a few well chosen remarks.

Respectfully submitted,

FRANCES B. MORRISON.

SUPERINTENDENT'S REPORT

SEPTEMBER 1 to FEBRUARY 1

To the School Board and Citizens of Orford:

I am presenting a brief report of general school conditions.

My late election last fall and the subsequent extreme difficulties of traveling have prevented me from doing as much work in the schools as I expected to be able to do; work that a superintendent should do. It is necessary to spend so much time on the road that visits at schools are necessarily short.

Thus far my work has been largely that of getting acquainted with general school conditions, of checking up the daily programs in the schools and the work of the various grades, and of assisting teachers in regard to problems that arise from day to day. Nothing revolutionary has been undertaken. Educational progress is of slow growth and while the yearly result may not be startling each year should see progress in the way of higher standards of scholarship, of better attendance, of better buildings, of higher grade teachers and of general school efficiency.

On the whole I found the Orford schools better equipped with text books, supplies and equipment, and with teachers of higher average grade than in the other towns of this union.

The average monthly salary of teachers was \$56.50 last year. This year the average monthly salary is \$62.50 or \$562.50 per year. For a woman who is entirely self-supporting this is very low especially when we consider the time spent in training and preparation for the work, and the fact that every year greater demands are made on teachers. Salaries will inevitably be higher next year as there is a serious shortage of teachers not only in New Hampshire but all over the country. Commissioner Claxton reports that 20,000 schools are now closed because teachers can not be obtained and that 40,000 more schools have teachers who have less than a high school education.

Most of the school buildings in this town do not fully meet the minimum requirements of the state board of education and the state board of health. These conditions will have to be remedied at once and a liberal appropriation should be made at the March meeting for this purpose.

I find in Orford some capable teachers and pupils and a public sentiment which I believe is favorable to permanent progress.

Respectfully submitted,
CARL T. RHOADES.
